New York, Sept. 13 .- The young married surgeon whom Annette Day loved was sought diligently by detectives today to tell what he might know of Misa Day's last hours. Her brother Francis, a real estate dealer of this city, declared last night that she was the slain woman whose body was bisected and thrown into the Hudson within the past two weeks. He identified a portion of the body—the head, arms and one leg were still missing—as that of his sister, by an odd shaped discoloration on her back, which he said was a birthmark.

STOCKS STRONG STRENGTH AT THE WEEK END

Trading on Largest Scale For Week.

NOTE—All market news on this page reflects closing sale prices (unless buy or hid be specified) Saturday, Sept. 13.

New York, Sept. 13.—The stock market closed strong. Speculation was of a broader and more general character today and less prominence was given to special stocks. Union Pacific, Reading and Steel assumed the leadership in turn and the home market gave a consistent display of strength.

The evident scarcity of stocks facilitated the upturn, which in some cases approached the spectacular. This was especially true of Reading which rose four points, and Canadian Racific, which gained 5½. The rise extended to a point where it became evident that short covering was not alone responsible, and buying for the long account was more confident.

Trading was on the largest scale of the week's dull movement. Transactions in the first hour were on the basis of a million a day.

Speculation Is Broader with Frosts in Iowa and Wisconsin Lift Corn, but a Shade Loss Follows.

Chicago, III., Sept. 13.—Wheat developed strength today, influenced partly by an authoritative estimate that the crop in France was 30,000,000 bushels short compared with last year. Offerings in the pit-were light at the outset, with shorts and commission house on the buying side. The resulting advance, however, led to free selling by a prominent house.
